Remarks :

JUST REDUCED - We are pleased to offer this Westerly Fulmar 33 for sale, designed by Ed Dubois this is a bilge keel, sloop rigged sailing yacht, well designed and finished throughout. Built in 1996 and one of only a short run of production totalling 18 boats the Fulmar 33 was based on the very succsesful Fulmar 32 with the main difference being the sugar scoop stern and larger saloon and as such is a sought after yacht on the used boat market.

This particular example needs some light works completed to return her to full service, both on deck and below and has been priced to take account of this.

The Westley brand is well known for developing well built models with good seakeeping ability and this particular model is no exception, anybody looking for a good reliable sailing yacht should give the Fulmar 33 plenty of consideration.
