Northstar Vega 5.8

Broker Remarks

Northstar Vega 5.8 – Low Hours Honda 100HP

This Northstar Vega 5.8 is a seriously capable and well-designed RIB that offers far more than you'd expect from a 5.8m platform. Designed by Adam Younger, the hull is built around Northstar's Pro-Trim concept, giving quick planing, excellent balance, and a dry, confident ride even when conditions pick up.

The photos really say a lot about this boat—it's clean, modern, and practical. The wide beam and open layout make it feel spacious on the water, whether you're cruising with family or running it as a tender.

This example stands out thanks to its Honda 100HP outboard with just 50 hours, meaning it's barely run in and offers reliable, economical performance. The 100HP setup is also exactly what the boat was designed around from new, giving a well-balanced and efficient package.

Overall, it's a turn-key RIB that's ready for the season—ideal for leisure use, watersports, or as a stylish and capable yacht tender.
