Detail

Construction and Mechanical

STEALTH 540 Built 2006 and commissioned in 2007

Built by Stealth Yachts South Africa

Designed by Stealth Yachts and Prof G Hope

Stealth are performance oriented catamarans specifically designed with a HYSUCAT (HYdrofoil Supported CATamaran) hull and integrated hydrofoil system, to achieve unmatched performance, fuel economy coupled with a more comfortable ride in any sea-state

GRP hull, deck and superstructure (hand laid)

18" Hull extension by Stealth in 2008

Antifouling over epoxy based osmosis barrier

Fore and aft hydrofoils HYSUCAT

Forward water tight compartments

Self draining cockpit

TOM electronic steering with dual helm stations

Mechanical:

Powered by twin MAN R-6 6-cylinder 800hp diesel engines

Fully serviced in 2011, only 30 hours since. All details held in MAN agent computers.

MAN engine screen

Bosch mini marex electronic marine controls

ZF 325A angle gearboxes with Q-speed SD-300 surface piercing drives

VEEM 5 blade surface piercing propellers

Cruising speed 35 knots

Maximum speed 40 knots

Range at 35 knots - 330 miles

Electrics:

24v system supplied by 4-engine start batteries and 6-domestic batteries (2012)

110V Shorepower

Northern Lights 12 Kva generator

Victron Inverter and battery charger

2 x Alternators with Smart multi stage regulators

Octoplex Power Management and monitoring system

Tankage:

Fuel capacity 1,750 litres in 2 stainless steel tanks

Fresh water capacity 430 litres in 2 stainless steel tanks

Holding tanks

Water System:

2 x 30 litre Calorifiers (hot water system)
