Remarks :

The Jeanneau Merry Fisher 795 is the most popular model in the Merry Fisher range, demonstrating practicality, innovation and refinement in design over its peers, both inside and out. Having replaced the MF 755, over 1000 examples of this highly successful mid-range day cruiser have been produced. Along with its dynamic design the traditional deep V-shaped planning hull is best known for its stability in choppy seas and at speed, providing both comfort and excellent performance.

The wheelhouse design exemplifies the key concepts at the very heart of the Merry Fisher range, where Jeanneau has focussed on maximising the amount of natural light entering the interior of the boat giving you the feel of the outside while protected from the elements and providing a panoramic vista at sea or rest. It is because of this super visibility and use of extra-large side windows that the wheelhouse feels like a large open space. An easy to operate sliding roof panel not only complements the natural light design but adds improved ventilation particularly when used in conjunction with the 3 leaf sliding doors. The latter, when fully open provide a pleasantly surprising amount of space between the cockpit and wheelhouse.

The Merry Fisher 795's cockpit itself is wide and open, affording a particularly social atmosphere with U-shaped seating that is perfect for entertaining or family meals. The seating can also be converted into a sunbed which, thanks to a cleverly designed central sliding seat, can still be used when the engine is raised.

Our 2020 model Merry Fisher 795 comes with: Yamaha F200 GETX-Electronic Shift; Premier Level Trim; Electric Windlass; Teak Swimming Platforms; Luxury Galley; Double Berth in the Saloon; Marine Head; Wheelhouse Curtains and more.

With the necessary comfort to cater for those who want to spend the night or at least the whole day on board, the recreational space for al fresco entertainment or sunbathing and its "trailerability", the Merry Fisher 795 is obviously focussed towards family use. It is perhaps overly well-appointed for the devoted fisherman, but for those who not only want to fish but also want to share their boat with family and friends, less might not be more.
