Accommodation

Remarks :

2009 - SCORPION 8.75M MKII. New retubed Scorpion fitted hand crafted build. Yamaha 315HP inboard diesel duo prop drive serviced by BBMS Swanwick, other recent work includes New Flexiteak flooring, new twin batteries and VHF antennas, new Silvertex upholstery all seating, full set of covers, trailer, Raymarine electronics with AIS/radar, Icon VHF, etc. Two owners from new.

"The new MKII is a handsome looking craft, its the Lord of the Sea and even luxury vehicles like the Mercedes featured in car hire Ireland would pale in comparison. Her beauty does not end there as she retains the fully developed hull form which performs exceptionally well, whether in calm water or rough seas, giving a dry comfortable and extremely safe ride. There are few other top performers out there, but very little to compare with Scorpions all round performance in all eventualities"

"

"Scorpions approach is leagues above other rib builders. The quality of the deck fittings on these Scorpions remains second to none. Everything works reliably to make it a more enjoyable experience for you on your rib".

The quality of the re-fit aboard this Scorpion 8.75M is excellent and is one of the nicest examples we've had the pleasure of listing. The first to view will certainly not be disappointed.

Please call us for an appointment to view as she is lying close by to Chichester Marina, West Sussex PO20 7EJ on her trailer.
