Accommodation

On Deck this model provides level access to the cockpit from the port side aft with its large swim platforms, stainless steel swim ladder and shower also located on the swim platforms. As with most Jeanneau's the cockpit is family friendly with deep freeboard, lots of grab handles, cupholders and a stainless steel gate to close off the entrance. The aft deck on this model is very flexible with three pull down bench seats all with backrests to give complete seating around the teak table which enables its users to have a large family or two sat round a table for a meal or drinks. Alternatively if you are looking for water sports the seating can be folded away to give a large deck space, the ski pole can be utilised and there are two large aft deck lockers for the stowage of equipment. If waters sports are not the order of the day there are rod holders built into the gunwale and even a small self draining locker on the swim platform for stowage of gear.

For entertaining there is second fridge located below the co-pilot seat with a sink and gas burning on the Portside. With the asymmetric deck layout the port side provides generous access to the foredeck that has two large sunbeds with adjustable backrests, handrails and cupholders.

At the Helm you have a commanding driving position thanks to the step up to the helm station giving a superb position which is great when underway but also a great benefit when berthing. The helm station has generous bolster seats for both the helm and co-pilot providing comfort whether you are seated or standing. Twin Yamaha Electronic throttles are situated on righthand side of the console and give the helm great control with effortless shifting and are a real step forward from traditional cable systems. The helm station also comes equipped with compass, bow thruster controls, trim tabs and 6" colour Yamaha display.

Below Deck the interior is fitted out with a walnut finish with lots of light coming in from the large sea vision style port holes, opening deck hatch forward and opening port hole in the heads. Forward there is a table that can be converted into a double compliment berth, mirror and ambient indirect LED lighting. On the port side there is a further storage and cabinetry that houses the microwave and fridge. On the starboard side is a well appointed heads compartment with good headroom which contains a sea toilet, shower with screen and hand wash basin. Aft, behind the steps down from the deck is large double berth with multiple storage lockers for all an owners wears.

Remarks :

The 9.0WA has a Michael Peters deep V-Shape hull which provides excellent seakeeping qualities ensuring she is both safe and sporty but also being able to be used for family cruising or more sporting pursuits. The biggest benefit to an owner is how versatile this craft is, with its flexible aft deck seating which wraps around a table which is ideal for entertaining, sun beds on the bow for sunbathing with tilting backrest, ski pole and large swim platforms for water sports with a pressurised freshwater system to rinse off. Below deck there is excellent accommodation, with a double berth, separate shower room with marine heads and the ability

to convert the table and seating into another sleeping area.

This brand new Cap Camarat 9WA is currently available to view ashore at Chichester Marina priced with twin Yamaha 200hp engines, this boat benefits from a £15,000 saving against the new price and you could be afloat for Spring.

Whilst being a family-focused boat the 9.0 WA makes no mistakes in being a rewarding and engaging driver's boat, as echoed by the boating press such as Mortorboat and Yachting.
