Accommodation

This Centre Console 6.5 Cap Camarat is all about the ease of movement on deck with its walk around passages either side of the asymmetric helm station. Despite the deck being maximised for access and seating there is still a cuddy area which can be really handy for the storage when underway to either keep positions dry, out of the sun or secured when applying some performance.

This boat is a great alternative to a RIB of a similar length as it offers more protection for its occupants with a significantly dryer ride thanks to the flare on the bow and its Michael Peters designed deep V hull. The 6.5CC is extremely versatile allowing you to enjoy using the boat for lots of activities on the water from cruising, watersports, cruising or simply socialising at anchor.

Now in its third generation the boat is well considered for family use with little touches that allow all to enjoy their time on the water and feel safe.

Remarks :

This 2020 Series III Jeanneau Cap Camarat 6.5 Centre Console not only builds on the success of the previous 6.5 generation but it also has a completely new Michael Peters designed hull that delivers not only a superb performance but also an increase in the internal size that gives a cockpit that is more akin to the 7.5WA. This is a versatile boat that is sure to be market leader in a class equipped to allow owners to maximise their enjoyment on the water.

The 2020 Series III is well equipped for a variety of uses on the water; with Rod Holders and External Wet Locker for Fishing; Ski Arch and Cockpit Shower for Watersports; Sundeck for

Sunbathing; Generous Seating aft with a Table for entertaining; and a commanding yet protected helm position to maximise comfort and enjoyment while underway.
