Remarks :

S/Y Caprice was built by the Jacobsson Brothers in Dragsmark on the west coast of Sweden during the years 1986-1988 and designed by Peter Norlin a well renowned designer of a number of successful offshore sailings, offering a fantastic sailing experience. S/Y Caprice was designed for his/ client Jan-Eric Osterlund.

She is one of the best yachts in this size that has been built in Sweden displaying top quality in terms of design, workmanship and choice of materials.

S/Y Caprice is in very good condition with substantial investment in past few years - new standing rigging, teak decks, electric system, and complete renovation of the exterior hull - bone white in 2014.

A beautiful wooden interior which take one's mind back to the glory days for wooden ship.

She is EU VAT paid and can sail under any flag, presently under the Dutch flag with Amsterdam as her home port
