Navigation Equipment:

Garmin Fishfinder 90 with transom mount transducer

Garmin 72S GPS (Handheld)

Compass

Trailer:

Indespension single axle galvanised roller coaster trailer c/w lightboard

Electric winch mounted on trailer for easy launch and recovery

Accommodation

Remarks :

'Pegasus', this 2010 Predator 165 Sea Angler was hand-built Predator Boats at Douglas boatyard in Lancashire by skilled and experienced craftsmen using only the best, Lloyds' approved materials. The Predator 165 Sea Angler set the standard of performance and safety for sports fishing boats.

She is more than just an excellent fishing boat.; the easy access stern makes it ideal for water-skiing and for use when diving, the modern, very stable, hybrid hull form makes it ideal for use as a work boat as well as a fishing boat, and the unique "life-ring" of built in buoyancy means it is one of the safest boats of its kind. These key features make the Predator 165 Sea Angler perfect for serious sea fishing, as a work boat, or just for leisure use.

A good inventory to include electric anchor windlass, Navigation suite, and Roller Coaster road trailer c/w electric winch, this example is very desirable and is ready for immediate use. Viewing by appointment.
