Mechanical and Rigging

Construction:

GRP constructed motor boat with semi-displacement hull.
Ivory coloured topsides with contrasting black decals.
Large cockpit with locker storage. 2 fishwells with drains port and starboard.
Transom gate at rear with securing bolt. Bathing ladder under transom step.
Live bait well with sea water pump and drain. Sea water deck wash pump with hose.
Wide gunwales with inbuilt rod holders and handy cleats.
Seating to rear with pop on cushions. Additional portside "Flip Seat"
Bow with protective rails and anchor locker. Stainless steel grab rails on roof.
Sliding roof hatch for added natural light and ventilation.
Curved toughened glass windscreen allows excellent visibility. Windscreen wiper.
Side windows are tinted to reduce glare and have sliding openings.

Engine & Electrics:

Vessel powered by an economical and powerful Mercury 100hp 4-stroke outboard.
This engine has completed 58.1 hours (30-April 2019).
Electric trim and tilt allows engine skeg and prop to be fully removed from water.
Single lever engine control at helm.
Multifunction tachometer/rev counter with up to the minute data.
Additional Smartcraft speedometer fitted from factory.
Stainless steel spoked steering wheel. Hydraulic steering.
3.5hp Mercury auxiliary mounted on an adjustable bracket.
Bank of two 12V batteries fitted with isolator.
Batteries recharged via engine alternator.

Remarks :

The Quicksilver 605 pilothouse is an ideal vessel on which to enjoy the water. Whether it's angling, weekending or days out with friends and family, you will be hard pushed to find better. Deep cockpit with seating and table, generous cockpit storage, full cockpit enclosure added in 2018, spare cockpit bimini top and a large wheelhouse with great visibility and double berth enhance your boating experience.

The anglers amongst you are well catered for as well, with live bait well, deck wash, fish storage, rod holders and a colour Hummingbird chart plotter/fish/depth sounder.

It is powered by a Mercury 100hp, 4-cylinder outboard that provides economy, reliability and performance. The engine has been well maintained and has completed 54 hours. Mercury 3.5hp outboard mounted on rear bracket.
