Remarks :

Sealine F46 for sale. The first thing you notice about this Sealine F 46 is that it seems to have more room than a much larger boat for its length. The cockpit is joined to the saloon with fold back doors and offers a spacious and bright seating area just asking you to sit and relax. 14 square metres of glass gives all round visibility and the visual impact is stunning. The glass is continued in the tall windscreen sections that wrap around the front of the superstructure.

The owners cabin is spacious, and very well appointed, and has been designed to allow space for the lower dinette and galley.

MOON QUAY has always been professionally maintained and it shows. The hull is gleaming and the whole boat has that 'just out of the showroom' feel. For sale as owners live some distance away and there is no opportunity for use. In the same ownership from new.
