Remarks :

Azimut 86 Sport - 2006

All maintenances and updates of the boat have been done as cosmetically, mechanically and technically. The

boat has been looked after by an experienced captain and crew all the time.

With her special Arneson Surface drive system, she catches high speeds under low fuel consumption.

Please contact us for further information about this beautiful, strong and fast Azimut 68 Sport.

The 86S has an aggressive and unmistakable profile, emphasized by the hull and the six centralized square windows which have become Righini's signature for the Open line. The superstructure's windows recapture the shark fin shape present on the flybridge models with a third oblong larger window, streamlining and offering optimum visibility. The superstructure has ample space inside which can be totally isolated from the external areas or alternatively completely integrated. The hard top integrated into the superstructure of the boat may be opened electronically by sliding towards the aft and concealing itself in the roof of the cockpit. The large door which gives access to the salon, when open, creates an overall space of 55sqm reaching as far as the stern.
