Remarks :

Trawler yacht 62ft (2008) built by European Pleasure Craft Co. in UK to a bespoke Bruce Roberts design.

Adagio has been the pride and joy of her owner, since 2008 she navigated the inland waterways of France (She is especially designed for this, to the Mediterranean, where she is much more at home. She has spent the last few years cruising around the Ionian islands, Greece.

The spacious and cleverly designed interior has been immaculately kept. Luxuriously built to professional standard with generous internal accommodation and must be seen to be appreciated. The lower saloon is homely and immensely comfortable; a perfect place to escape. Moving up to the upper saloon, with helm station to starboard, more seating can be found, offering an area to enjoy the sights through the large wheelhouse windows. The spacious galley - situated forward, down some steps from the upper saloon - has been equipped to a very high standard.

Adagio was made for Mediterranean cruising, and that is clear from the deck space. The foredeck is for sunbathing, while the aft is a place to find cover from the sun during the day. At night, the aft decking is a perfect place for entertaining, looking out over the quay, or at anchor in a secluded bay.

HIGHLIGHTS

- Built to a high standard
- Flybridge
- Large raised aft deck and swim platform
- Twin Cummins 275hp (1300 hrs)
- VAT paid
- Air Conditioning (2 units)
- Huge master stateroom aft
