## Remarks :

The design team at **Sabre** has done a spectacular job with the **Sabre 425**, providing more room than the **42**, throughout the interior and staterooms, along with a perfect blend of classic elegance and performance. The **425** hull has more freeboard than the **Sabre 42**. The designers added seven inches in the bow and three inches in the stern to gain more interior volume and headroom. The transom angle has been drawn out for a more rakish look and this particular hull features conservative lines with a wing keel and semi balanced skeg rudder.

The open and airy interior, with select-varnished teak woodwork and stainless portholes, gives a warmth and richness usually found on higher priced custom yachts. Sail handling is fun and effortless with large primaries winches and reef/halyards led aft to the cockpit. The headroom in the forward cabin is excellent and the large hatch, portholes and skylight add to the open feel of this stateroom. The saloon is thoughtfully laid out including a fold up table, navigation table and large galley. In the aft there is a large double berth cabin to port and large head with a separate stall shower to starboard.

As the ultimate cruiser/racer the boat is fully equipped for offshore and coastal sailing
