## Mechanical and Rigging

### Construction

The hull is a solid laminate with isophthalic resins in the outer layer, with a balsa sandwich deck and coach roof.

The hull is copper coated.

Lifting Keel

Twin Rudders

The lifting keel is housed in a shallow stub wing keel.

To dry out the hull rests on the 3 points of the keel stub and twin rudder tips.

**Remarks :**

Diablo is a beautifully maintained vessel and is in lovely condition ready to sail away. She is the highly sought after and rare version Beneteau Oceanis 331 with lifting keel and twin rudders. As well as delivering a fantastic sailing performance, she also has the ability to dry out, and a very shallow draft if needed. Viewing is highly recommended to appreciate her in full with a host of added extras. Part exchange considered. Reasonable offers on the asking price will be considered for a swift sale.
