- Fitted winter covers for the whole of the topsides

**Tender:**

- Seago 2.6m inflatable tender
- Suzuki 2.2hp 2-stroke outboard motor

**OWNERS REMARKS**

An exemplary example of this bluewater classic. With the current owner for 10 years, 'Finequala' has been comprehensively maintained and upgraded. She has been lightly used over the 8 seasons she has been afloat. From October to May each year she has been on the hard, under covers with sails removed and an interior fan heater installed. A stunning yacht, she is in full working order, extensively equipped and ready now for long distance voyaging. Vancouver 34 Pilots are renowned for the quality of their build and their handling, so this is a rare opportunity to own an offshore thoroughbred.

**Accommodation****Forepeak:**

- V berth, providing two good length single berths or a double berth (by way of an infill)
- Dressing table with a mirror, drawers, hanging locker and ample locker stowage.
- Access to dedicated chain locker

**Heads/Shower:**

- Located to starboard between forepeak and main cabin

- Fitted with a hand pump operated marine toilet, hand basin with pressurised hot and cold water and mixer tap/shower head
- Good built in stowage and shelving for toiletries
- Option for fresh water flush from auxiliary water tank

### **Main Cabin:**

- Located starboard midships provided with a large double berth, hanging locker and vanity unit.
- Infill which provides a seat when not in use as a berth.
- Fold down table.

### **Galley**

- Linear configuration located to port opposite the midships cabin
- Adjustable dimmer lighting
- Isotherm 3200 ASU 12 volt powered refrigerator under the saloon cabin sole
- Gimballed gas cooker with two hobs (with fiddles), a grill and an oven; fail safe on all burners
- Gas control switch in galley operates isolation valve in cockpit gas locker (separate locker for spare gas cylinder)
- Hot and cold pressurised fresh water to the twin sink plus an additional foot operated fresh water pump
- Hand operated water pump for separate fresh water containers

**Saloon (Pilot House):**

- Variable dimmer lighting
- Starboard settee can be turned into a full width single berth
- Large dinette arrangement with all round view
- Table has fiddles and can be raised or lowered (as required) and has extension leaf (stowed in main cabin)
- Hanging wet locker
- Large lockers under berths and behind seat backs
- Seating reupholstered in 2010
- Access to engine compartment under steps

**Internal Helm Position:**

- Located to port in the pilot house; interior throttle control, autopilot control and main circuit breaker/switch panel

**Chart Table:**

- Located to port in the pilot house; suitable for full size charts
- Multifunction displays
- Inverter 13 amp socket
- Mains socket

- Network cable socket (for connection of a PC to the chartplotter if required)

- Mini jackplug connection to radio aux input

### **General**

- All interior joinery is teak or teak veneer

- Galley and heads surfaces are in laminate

- Lockers, stowages and fiddles are in teak

- Cabin soles are teak and holly striped

- Concertina blinds in saloon, roller blinds in cabins and heads

- Fly screens for opening portlights

### **Heating and Ventilation:**

- Eberspacher D3LC warm/cold air system (outlets to forepeak, main cabin and saloon)

- Engine room fan

- Solar fan fitted to forehatch

- Dorado vents to heads and galley

- Opening lights in forepeak, heads, main cabin, saloon and galley

- Deck hatches - forepeak, main cabin, saloon

### **Interior Lighting:**

- Good provision of led lighting throughout (dimmable overhead saloon and galley worktop lights)

- Chart table red/white gooseneck light
- Red floor level night vision lights in saloon

## Remarks :

Finequala is a classic long keel, cutter rigged world cruiser. Built by Northshore she represents the best of British boatbuilding and is in fine condition. She has been prepared for long distance cruising by her present owner, an experienced yachtsman and aeronautical engineer and is offered 'ready to go'.

Fitted out for short handed cruising, her navigation, autopilot and engine control systems are controlled from inside the pilot house or the cockpit. Autopilot and Hydrovane self steering

The saloon has 360 degree views from the seating position. Fine teak joinery with massive storage, two double cabins and good sized heads/shower. The galley is seamanlike and functional with direct access to the saloon. A truly fabulous yacht of manageable size ready for adventure.
