Remarks :

1978 Trapper 500 a true classic 28 foot sailing boat. Only two owners both brothers, since new and currently out of the water this boat would be ideal for a small family or couple for a first boat, or somebody that would sail singlehanded all halyards lead to the helm, so is very easy to handle on your own. suitable for coastal or even blue water sailing she was built on the South Coast she has a good pedigree and was a favourite amongst many sailors back in

the 70's being easy to handle, stable and fast, with the semi balanced rudder that can turn through 360 degrees she is an easy boat to moor up stern to and makes close quarter manoeuvring very easy.
