Remarks :

We are delighted to add to our listings a very good example of a **2011 Hanse 375**, with approximately 270 hours run to date on the Volvo D1 -30 Engine which will give an approximate range of 290 nautical miles on one tank and last serviced in 2016, folding props attached to the sail drive. All lines leading back to the cockpit make her an easy boat to sail either single handed or with a novice crew, she is capable of long cruises easily reaching 12 Knots on a beam reach, self tacking jib that can be set with sheets and cars to be sailed in a more competitive manner. Below decks she is complemented by a Canadian Beech finish and a Cherry Wood floor, along with Florance Beige Melange fabric upholstery, giving a very light and spacious area in which to enjoy your accommodation, including a DVD/TV, Stereo with both Saloon and cockpit speakers. She has 3 Private Double Cabins separate heads with full height shower stall. a well equipped galley comprising of twin stainless steel sinks, a

cavernous front and top loading fridge, twin gas burners and gas oven on a gimbal, work top, shelving and draw storage.

The current owners have had her since new and sailed mainly around the coast of North Wales with very light use.

This boat is a must see as we are sure she won't be around for long.
