Documentation in order

Capacity 10 persons

Comments from the owner;

All the engines are in perfect condition with a very complete revision that we also did this year;

there are invoices for everything. We also put all the lights of the boat in white led light that gives it greater illumination, the sound system is new, all complete from the JL audio house with all the oxygen-free wiring, the ceramic hob and the microwave are also new in 2020, we put a c5 parquet on the kitchen floor, all the plug and button mechanisms are also new from the simon house, model 82. As you can see, the boat is in perfect condition, it is very well cared for and we are always on top of it doing things. The reason for the sale is that my father is getting older and he no longer has the same agility as before and the boat is very big for me alone.
