# BRIG RIBs Eagle 6.7

## Broker Remarks

'Black Betty' is a lightly used example of the highly popular BRIG Eagle 6.7. Built to a 2021 model year but sold and launched in June 2020. She comes complete with: Black ORCA Hypalon Fabric Impression Tubes, all black gel coat, grey silvertex seating with bow sundeck, mocha coloured seadeck flooring, Garmin chart plotter, Garmin VHF, Fusion stereo, bimini, SeaStar Hydraulic Steering; a Modern Console; Luxury Helm & Forward Facing Bench Seats; Stylish Ski Mast with White Navigation Light; a Square Bow that increases the space for Sociable Seating; Stern Tube End Steps with Non-slip Surface; Stern Swim Platforms with Stainless Steel Telescopic Boarding Ladder; Stylish Moulded Splashwell with Integrated Rear Bench Seat; Hull & Deck design maximised for Storage; Extended Waterline & Integrated Trim Tabs; and a Self-draining Deck straight to sea.

This is a stunning rib in custom black colours with contrasting grey seats and mocha sea dek. The BRIG Eagle 6.7 is an evolution of BRIG's best-selling Eagle 650 luxury family sports cruiser/RIB. This new model inherits all the best features of its predecessor and has developed into the best family RIB of this size in the World. Sometimes, small changes make a big difference, and this is the case for Eagle 6.7. The deep V hull has been completely redesigned to improve seaworthiness, handling and stability, and the brand-new multi-purpose navigation mast adds a touch of elegance.

The advantage of the Eagle over a traditional, hard-hulled sports boat is its inherent RIB ability to get you home safely if the weather does blow up. Friends and family are not going to get frightened or worried about the boat being overwhelmed because she'll simply keep battling away pretty much through anything until you get back into port and tie up alongside the pontoon again. Thanks to the Eagle's self-draining decks and the massive buoyancy of her big tubes, whatever water these boats might ship in a heavy sea will not present a problem. It is because of her high-volume tubes and increased stability that the Eagle 6.7 stand out from her peers; as such she has been given a Category B (C) CE Certification; meaning she has been built to navigate in offshore waters (200 miles and less) and can sustain up to force 8 and waves up 4 meters.

The seakeeping ability of the Eagle 6.7 doesn't compromise the performance associated with a sports RIB of this size. Instead the slightly higher tube position, and the extra-large sized engine shaft that increases the variety of compatible engines that can be used, ensures she remains fast, responsive and fuel efficient. At the end of the day, the Eagle 6.7 doesn't just provide a reassuring, 'get you home' comfort factor; she is a truly high-performance RIB, with a genuine, turn key package exemplifying both quality and good value.

Please call us on 01243 50042 for more information and to book an appointment to view her.

# Mechanical and Rigging

## Hull & Tubes:

Black Impression Hypalon Tubes

Black Hull

Grey Silvertex Luxury Fabric Upholstery
