Larson Cabrio 310

Broker Remarks

'Osh Bosh' is a well presented example of a Larson Cabrio 310. She offers large amounts of social space both above and below decks. The patented Duo-Delta Conic hull is designed for smoother, faster performance with better fuel economy than traditional deep-vee cruisers. The boat feels bigger with a transom platform design that enhances cockpit space. And the upper cockpit features a reclining lounge and double-wide helm seat with lift-up bottom cushion. The mid-cabin area is designed with a footwell and raised overhead so you can use the space as a lounge or comfortable sleeping for up to four. A stowable solid wood dinette table matches the cherry-laminate cabinetry in the galley, which also features Granulon counters and durable woodgrain floor. In the galley there is an induction hob, microwave and a large fridge with freezer compartment. The head features a separate shower area, sink and vanity along with an electrical toilet with holding tank.

She had a significant amount of engine upkeep and maintenance undertaken by the local Volvo main agents in the last

few years. This includes two brand new Volvo Penta stern drive engines in March 2025 which means she is absolutely ready to be enjoyed by her new owner.

Please call us on 01243 550042 for more information and to arrange a viewing.
