Jeanneau Cap Camarat 10.5WA S2

Broker Remarks

This Jeanneau Cap Camarat 10.5 WA Series 2 is an exceptionally highly specified example, powered by twin 425hp Yamaha XTO engines and equipped with Yamaha Joystick control. Her extensive specification includes the Premier Pack, bow thruster, forward sun deck, automatic trim tabs, T-top with closing kit, and a comprehensive suite of Raymarine electronics, including twin 12-inch multifunction displays, VHF, AIS and radar.

Further enhancements include a bespoke Fusion sound system and a custom hull vinyl wrap, which can be removed if required. This is a particularly well-equipped example, with a host of additional options and upgrades throughout.

Inspired by the larger Cap Camarat 12.5 WA, the 10.5 WA Series 2 replaces the highly successful first-generation model, which established itself as a best seller following its launch. For the Series 2, Jeanneau has comprehensively redesigned and refined the boat, enhancing both its functionality and performance.

A substantial, stainless-steel-supported T-top provides excellent protection from the elements, making the 10.5

WA particularly well suited to the UK climate. Beneath the boat, a Michael Peters-designed, no-step infusion-moulded hull delivers impressive sea-keeping, stability and performance, even in more challenging conditions.

At Blackrock Yachting, we have a proven track record with larger Cap Camarat models in the UK and have drawn on this experience to create the specification of **'Blue Pearl'** with our customers' requirements firmly in mind.

While the previous-generation Cap Camarat 10.5 WA was already an impressive and highly capable boat, the Series 2 represents a significant evolution. Its combination of performance, comfort, specification and versatility really needs to be experienced first-hand to be fully appreciated.
