Scorpion 28 Sport

Broker Remarks

The Twisted 28S is a British-built leisure RIB that combines pedigree, capability, and refinement. Based on the legendary Scorpion hull — renowned for precision handling and offshore performance — it delivers serious ability with versatile day-to-day usability.

Designed to adapt to all kinds of use, from wakeboarding and watersports to family cruising or relaxing at anchor, the 28S balances practicality with style. Powered by the world's first Black Edition Honda V8 outboard (350HP), it offers strong, reliable performance whether crossing distance at speed or enjoying quiet moments afloat.

Attention to detail runs throughout, with premium finishes, a carefully planned deck layout, and thoughtful features such as a sunpad conversion, ski pole, shower system, and integrated lighting. The result is a RIB that is as functional as it is refined — a blend of Scorpion pedigree, British craftsmanship, and Twisted refinement.

Mechanical and Rigging

- **Engine:** Honda BF350 V8 Black Edition outboard
