Centurion NV 233

Broker Remarks

The NV233 takes it up a notch from the entry Centurion Nv213, with two more feet of length, room for two more passengers and the exotic sports car look that says high performance even when docked. It comes with up to 5000 pounds of available ballast, more than half of which can be filled in 90 seconds with available RAMFILL2. This isn't a stripped-down version of a more expensive Centurion or an older design dressed-up new, the Nv233 is designed from the water up to deliver precisely what you need to get the most out of your water sports experience. The Nv233 offers world championship caliber surf, with the ability to propel you to your own best performance. Unique to the Nv Series design is the unobstructed GatorStepped space between the tower and the dash that facilitates easy communication directly with a rider – perfect for coaching. An abundance of built-in quality features means the Nv233 comes with everything you need to get on the water and enjoy a great ride from day one, but that doesn't mean you can't option up as

well. This 23-foot Centurion leaves nothing to be desired except more time on the water.
