Jet Boat Benefits

What are the benefits of choosing a Scarab Jet Boat?

- **Jet Propulsion Performance**

The Legendary Rotax 4-TEC Engine is the most proven technology in jet propulsion. With over 550,000 currently in operation and three power levels from one proven block.

- **Direct Power Gives You Maximum Power**

Unlike a conventional prop engine, which pushes water in a dispensed pattern, Rotax Jet Power concentrates thrust. An onboard impeller pulls water in and forces it out at a single point for maximum power. Less wasted engine power means more power in your throttle hand.

- **Advanced Safety**

Scarabs are designed from the ground up so you will always enjoy a fun and care free days on the water. With Rotax® Jet Power, you do not need to worry about a propeller when swimming or skiing near the boat. You also have peace of mind knowing that your Scarab has a very shallow draft allowing you to avoid below water obstructions and the ability to safely navigate almost any part of the waters.

- **Closed-Loop-Engine Cooling**

Protects the engine from harmful salt, gunk and corrosion by cooling it with clean coolant like a car. Like your car, every Scarab has a thermostat to ensure optimal engine temperature for engine reliability.

- **Drive Shaft Sleeve**

Helps prevent the problem of wrapping debris, such as tow ropes and weeds, around drive shafts while other systems can only try to fix the problem after it occurs.

- **Lateral Thrust Control Delivers Quicker Reverse**

Unlike other boats, which feature a small, plastic reverse gate, our aluminium reverse gate offers unmatched low-speed manoeuvrability to make docking a breeze.
