Broker Remarks

2018 Cormate T27 Supermarine

Norway builds boats differently. The T27 comes from Hydro Design — the same studio behind the Hydrolift — and it shows in every detail. A purist's performance machine dressed in the kind of understated Scandinavian elegance that makes Italian sportboats look shouty. King Harald V of Norway reportedly replaced his ageing Riva with one. That tells you everything.

At 8.46 metres with a 2.55m beam, she carries her performance in a compact, purposeful package. The 24-degree single-step hull is what separates her from the competition — composed, capable, and built for water that other boats avoid.

On deck, teak throughout, an aft sunlounger that converts between a large lounger and a four-person dining station, seating for eight. Below, a double berth forward with storage and a heads — everything you need, nothing you don't.

The Supermarine specification brings the premium equipment package: twin chart plotters, leather interior, and the fit and finish that makes this one of the most distinctive sportboats in the

Mediterranean.
