Anchor

Accommodation

Crystal is in very much race mode and has a simple uncluttered interior. She has a heads with sea toilet and built in stainless steel galley sink.

Remarks :

'Crystal' is a fast, successful 27ft racing yacht built by David Thomas, the designer of several iconic racing boats, including the Impala, Hunter 707, Sonata and the Sigma range. Her hull went on to be used in the very popular and successful Parker 27.

Crystal has had a substantial refit by her present owner. She comes with a full set of racing

sails all in excellent condition. Her running rigging has all be replaced with Dynema sheets and halyards. Her Tacktick wind and depth instruments were new in 2021. Her Safety rails were replaced in 2021 to RORC standard. She had a new carbon rudder in 2021 along with a new Bowsprit in 2022.

She is powered by a Lombardini 13hp engine which has been regularly serviced. Crystal is fitted out with quality Harken deck gear throughout.

Crystal has a great track record winning the Royal Lymington Yacht club Late series twice and Early series once, but never being out of the top three in all of these events. She consistently finishes in the top 10% of the Round the Island race.

If you are looking to take home some serious silverware, then this is the yacht that can do it for you.

But equally, with a little effort, she would make a great weekend cruising yacht.

Call Howard Ross on 07590 847548 for more information.

She can be viewed seven days a week in Lymington.
