High Spec, Air Conditioning and Heating Included

Part Exchange Considered and Finance Available

Lady J is a 2024 Jeanneau Merry Fisher 795 S2, supplied new in 2024 and owned from new by a single owner. With just 24 engine hours, she has seen very light use and is presented in good condition. She has a particularly high specification for a 795 S2, combining the Premiere Pack, Electronics Pack and Audio Pack with a number of desirable individual options.

One of the more unusual features is the 240V Dometic air conditioning system, a rare and desirable upgrade on a boat of this size. Alongside the 12V Webasto diesel heating, water heater and shore power, it gives Lady J a particularly well-equipped specification for spending time aboard in a range of conditions. The Suzuki 200HP APX outboard has accumulated just 24 hours and has approximately three years of engine warranty remaining, with the warranty transferable to the new owner. The combination of the low engine hours, single-owner history and J

**Premiere
Pack**

Audio Pack

- Fusion RA210 stereo
- Speakers

shore power, water heater and electric windlass.

The Dometic air conditioning is especially noteworthy and is a relatively rare option to find on a 795 S2. For me, it is one of the features that really sets this particular boat apart. She is in good condition and has seen very light use. The 200HP Suzuki also has approximately three years of engine warranty remaining, which can be transferred to the new owner.

With her single-owner history, only 24 engine hours and very high level of specification, I think Lady J offers a particularly interesting opportunity for anyone looking for a nearly new Merry Fisher 795 S2 without compromising on the equipment level.
