PHOTOSET AND VIDEO TO FOLLOW

The Jeanneau 51 is the collaboration of two great sailing minds with one of the most successful modern shipyards. Philippe Briand's long connection to the Jeanneau brand and visionary expertise in naval architecture is evident in the yacht's sleek lines, optimized hull shape, and balanced layout, ensuring superior performance and handling in a variety of sailing conditions. Complementing Briand's exterior design, Andrew Winch's meticulous attention to detail and refined aesthetics define the yacht's interior spaces, where the use of premium materials like ALPI teak creates an atmosphere of sophistication and comfort.

From the spacious forward owner's cabin to the inviting aft VIP and guest cabins, each area is meticulously crafted to provide a tranquil retreat for passengers. The inclusion of three heads further enhances onboard convenience and privacy for all passengers.

In the sail locker the owner has installed a platform and fitted cushions so that it can be used as a skipper berth.

Underneath its elegant exterior lies a robust mechanical setup based on construction techniques and hardware that are time proven and trusted, including a shoal keel and a upgrading the engine to the more powerful Yanmar 110HP Shaft Drive engine. This combination ensures not only exceptional performance under sail but also reliability and efficiency during extended cruising adventures, the Jeanneau 51 instills confidence in its owners, promising unforgettable journeys on the water.

With its blend of performance, comfort, and luxury, the Jeanneau 51 set a new standard in sailing excellence, offering a truly exceptional yachting experience for those who seek the best of both worlds.
