### **Remarks :**

Rainbow Seeker is a classic Beneteau First 405 from 1987, renowned for its performance, spacious layout, and sturdy construction. This vessel embodies the timeless elegance and functionality that Beneteau is known for. With a Perkins 4.108M engine, comprehensive sail inventory including a lazy jack system and Furlex roller furler, and a well-appointed interior featuring updated cushions and reworked headlinings from 2019, Rainbow Seeker is well-equipped for both comfortable cruising and adventurous voyages.

The deck is thoughtfully designed with essential fittings, including a stainless steel pulpit, pushpit, and toe rail, providing safety and convenience. Ample ventilation and natural light flow through numerous hatches and portholes, enhancing the onboard living experience. The spacious cockpit, which includes a large removable table, offers a comfortable and practical space for navigation and relaxation.

Below deck, the saloon, galley, and navigation table are designed for functionality and comfort, making extended stays onboard enjoyable. The forward owners cabin and aft cabins are spacious, with plenty of storage and lighting. Additional conveniences such as diesel forced air heating, a new battery charger installed in 2023 enhance her comfort and ability.

Rainbow Seeker spent her early years cruising the waters of the Mediterranean before being brought to the UK in the early 2000s. Over the years, she has also served admirably as a school and skippered charter boat.

In consideration of the fact that she needs some general updating and maintenance she is now priced to sell faster than a spinnaker in a storm—grab this deal before it sails away!
