Reasons To Buy A Scarab Jet Boat

What are the benefits of choosing a Scarab Jet Boat?

- Remarks:**
- **Jet Propulsion Performance**
The Legendary Rotax 4-TEC Engine is the most proven technology in jet propulsion. With over 550,000 currently in operation and three power levels from one proven block.
 - **Direct Power Gives You Maximum Power**
Unlike a conventional prop engine, which pushes water in a dispensed pattern, Rotax Jet Power concentrates thrust. An onboard impeller pulls water in and forces it out at a single point for maximum power. Less wasted engine power means more power in your throttle hand.
 - **Owners description: Atomic Impulse Scarab 198 ID.** Fully serviced Rotax 250hp Jet drive with only 24 hours - Immaculate in every way, Always kept out of the water when stored, flushed and maintained to the highest standard! "
 - **Advanced Safety**
Scarabs are designed from the ground up so you will always enjoy a fun and care free days on the water. With Rotax® Jet Power, you do not need to worry about a propeller bimini, sound system, trailer and more! Call Neil in our Poole office for more details. +44(0)1202 669554
 - Scarab has a very shallow draft allowing you to avoid below water obstructions and the ability to safely navigate almost any part of the waters.
 - **Closed-Loop-Engine Cooling**
Protects the engine from harmful salt, gunk and corrosion by cooling it with clean coolant like a car. Like your car, every Scarab has a thermostat to ensure optimal engine temperature for engine reliability.
 - **Drive Shaft Sleeve**
Helps prevent the problem of wrapping debris- such as tow ropes and weeds, around drive shafts while other systems can only try to fix the problem after it occurs.
 - **Lateral Thrust Control Delivers Quicker Reverse**
Unlike other boats, which feature a small, plastic reverse gate, our aluminium reverse gate offers unmatched low-speed manoeuvrability to make docking a breeze.
