## Mechanical and Rigging

Español: Este barco está equipado con dos motores Cummins QSC 8.3 Turbo, cada uno con una potencia de 600 CV. Cada motor tiene 805 horas de uso, lo que garantiza un rendimiento fiable y eficiente. Además, el barco cuenta con un generador Kohler de 11 kW, proporcionando energía adicional para todos los sistemas a bordo.

English: This boat has two Cummins QSC 8.3 Turbo engines, each producing 600 hp. Each engine has 805 hours of use, ensuring reliable and efficient performance. In addition, the boat has an 11 kW Kohler generator, providing additional power for all onboard systems.

- Exterior areas & elements:
  - All the areas are well-maintained and keep the initial purpose, with no structural modifications or relevant changes.
  - The spaces on the exterior deck are huge, mainly on the flybridge and forward area.
  - The elements fixed on the deck are generally in good order, with no relevant corrosion or damage. The flybridge has a considerable awning that allows the crew to enjoy it in the shade.
- Interior areas & elements:
  - The interior does not show a high level of use, and all the areas are initially kept using the same materials. There are no relevant changes or damages to report.
  - The interior elements, such as the galley, TV, Sound System, lights, and others, work as expected and without limitations.
- Technical Inspection:
  - Propulsion System: The maintenance of Engines and generators is up to date. The number of hours is low, considering the boat's year.
  - Electrical panels & Connections: The electrical system does not show any relevant modification and works entirely.
  - Bow and Stern Thruster: Both are working according to their expectations.
  - Mooring equipment: The yacht has a big anchor that allows safe anchoring.
  - Cockpit and Flybridge control areas: The pilot areas, both the interior and the Flybridge, are fully operational. The electronics are working fine; however, renewing the screens for recent models may be interesting.
- Dry Docking:
  - The dry docking inspection showed no hull damage or hidden accidents, which could eventually affect navigation safety.
  - The hull has a double coat of AF recently applied (June 2024) to create a smooth surface.
  - Anodes all of them renewed & all the through hull penetrations with no corrosion

This boat concludes that the owner has taken care of the relevant technical equipment and items and maintained its aesthetics. Technically, it is up to date, and no significant refits or maintenance costs are expected. The boat is ready to use.

## Inventory

### Español:

El barco cuenta con un completo equipo eléctrico que incluye entrada de corriente externa,

generador e inversor, asegurando un suministro constante de energía en todo momento.

En cuanto a la electrónica, está equipado con una sonda, radar, corredera - velocímetro, repetidores, TV, plotter - graficador, piloto automático, radio, brújula, GPS, altavoces en la bañera y radio VHF, proporcionando todas las herramientas necesarias para una navegación segura y cómoda.

En el equipamiento interior, se destaca la hélice de popa y de proa, bombas de sentina eléctricas y manuales, horno, aire acondicionado, WC eléctrico, calefacción, agua caliente, nevera, purificador de agua y cargador de batería, asegurando confort y funcionalidad durante cualquier travesía.

El equipamiento exterior incluye una ducha en la bañera, pasarela hidráulica y escalera de baño, haciendo la vida a bordo más cómoda y accesible.

### **English:**

The boat has complete electrical equipment, including an external power input, generator, and inverter, to ensure a constant power supply.

In terms of electronics, it is equipped with a depth sounder, radar, log-speedometer, repeaters, TV, plotter, autopilot, radio, compass, GPS, cockpit speakers, and VHF radio, providing all the necessary tools for safe and comfortable navigation.

Interior features include bow and stern thruster, electric and manual bilge pumps, oven, air conditioning, electric toilet, heating, hot water, refrigerator, water purifier and battery charger, ensuring comfort and functionality during any voyage.

Exterior equipment includes a cockpit shower, hydraulic gangway and swim ladder, making life on board more comfortable and accessible.

The boat has recently undergone several updates:

- The exterior cushions have been reupholstered.
- A handrail has been added to the gangway.
- The remote control for the gangway has been replaced.
- The on/off panel for the air conditioning has been changed.
- All batteries are new and were replaced less than six months ago.

## **Accommodation**

English: This boat has four double cabins, three bathrooms with showers, and an outside shower. It has a capacity for 12 people and is currently enabled to zone B—60 nautical miles. Skipper cabin with access from the cockpit.

Español: Este barco dispone de 4 camarotes dobles, 3 baños con ducha y una ducha exterior. Tiene capacidad para 12 personas, actualmente está habilitado para zona B - 60 millas náuticas. Posible camarote de capitan con acceso desde bañera.

## Remarks :

The Astondoa 50 Fly boasts a sleek and modern profile with fluid lines that give it a dynamic and attractive look. The hull is designed to offer optimal performance in various sea conditions, ensuring smooth and safe navigation.

The flybridge is a highlight of this model. Spacious and well-equipped, it includes a sunbathing area, an outdoor dining space, and an additional helm station. It's perfect for enjoying the sun and panoramic views while cruising.

The interior of the Astondoa 50 Fly exemplifies luxury and comfort. High-quality materials such as fine wood, elegant fabrics, and stainless steel finishes create a sophisticated atmosphere.

- **Main Salon:** This spacious and bright salon has large windows that flood it with natural light. It features a comfortable sofa, a dining table, and an advanced entertainment system.
- **Galley:** This is fully equipped with modern appliances, high-end countertops, and ample storage, which makes it ideal for preparing meals on board.
- **Cabins:** The yacht offers three luxurious cabins. The master cabin at the bow includes a queen-sized bed, ample wardrobes, and an en-suite bathroom. The two guest cabins are equally well-appointed and provide comfort and privacy for guests. There is access to a possible skipper's cabin from the cockpit.

## Performance

Powered by twin engines, the Astondoa 50 Fly delivers impressive performance and efficiency. It can reach high speeds while maintaining excellent fuel economy, making it ideal for short and long trips.

## Features

- **Length:** Approximately 50 feet
- **Beam:** Wide beam for stability and spaciousness
- **Draft:** Shallow draft for access to various anchorages
- **Navigation:** Advanced navigation and control systems
- **Comfort:** Air conditioning, heating, and high-quality sound systems
- **Safety:** Comprehensive safety equipment, including life rafts and life jackets

The Astondoa 50 Fly from 2011 is a testament to Astondoa's commitment to craftsmanship, innovation, and luxury. Whether for relaxing cruises with family and friends or entertaining guests, this yacht offers everything needed for an exceptional yachting experience.
