Manufacturer Provided Description

An elegant design which leaves nothing to chance: bands and stops underline the contours of the structure and reveal the strength of the hull. Inside, each detail is finely crafted to create an atmosphere which is both modern and uncluttered but also mellow and welcoming. A successful choice of materials and colours provides a play on contrasts and allows the boat's interior to be visualised in a different manner. Sessa Marine thus reinvents marine interior design, giving each view a 3D dimension. In this spirit, the lounge and galley present a play of colours and materials which create a unique, modern atmosphere: textured leathers on black lacquered wood or walnut, as well as velvet partitions enhanced by fetching steel pieces.
