Boat wintered ashore every winter since 2017 from October to April

2017 Galvanised custom made cradle

Owner's Comments

"Lady B" spent her first 18 years in Scotland and then moved to the South Coast of England. Where extensive upgrades were carried out, including reupholstering, new flooring, new linings in all cabins and rewired.

The boat was stored ashore in Hayling Island Boatyard for four years before I purchased her in 2017. I then carried out all necessary refurbishments and recommended upgrades before sailing her to her present home in Clew Bay.

She has proved herself to be a very comfortable seaworthy craft and I will be sorry to see her go."

Broker's Comments

"Lady B" has certainly been well minded by her owner. He has decided to put her on the market because he cannot use her to her full potential. Viewing is recommended.
