Accommodation

The comfortable wheelhouse with its 2 side doors, the interior saloon that can seat five around a table and the galley equipment are many of the comfortable elements of a family space. The two berths easily allow occasional use of the cabin.

For family use, on-board comfort is put first by means of several quite distinct areas:

The wheelhouse: the helm position with its driver's and co-driver's seats and side exits is remarkably comfortable and ergonomic.

Designed to take five persons (saloon + swivelling seats), with a folding table, a complete galley and numerous stowage spaces, the saloon allows use for the day or the week in real interior comfort. The two berths complete this comfortable layout.

Outside, movement around the boat, very safe for children, is served by two specific areas:

Aft cockpit: a real relaxation area, the aft cockpit gives a saloon for 4 persons. Fully adaptable, this cockpit saloon is also removable to match all possible sailing profiles.

Forward cockpit: fitted with a wide bench seat and two facing each other, the forward saloon is above all a quiet separate and well-protected living space, which in particular commands excellent forward visibility.

Remarks :

In very good condition, this Jeanneau 755 Marlin is equipped with a SUZUKI 200 hp outboard power unit.

She is the two-doors version with a rear wheelhouse seating bench and two side doors. The deck provide safe sidewalks on both sides. She has the Jeanneau premiere pack and a comprehensive list of options fitted. See the inventory below.

A real adventurer with its “SUV” of the seas image, the Merry Fisher 755 Marlin is inspired by Scandinavian style and a design appropriate for “all weather” boats. Perfect for Scottish coastal adventure.

An ideal alternative for sailing on a boat that is different with a strong personality, the Merry Fisher 755 Marlin is a perfect illustration of the latest trends in navigation programs and style.
