## Accommodation

**On Deck**
Stepping aboard "Boomer" you are immediately struck by the substantial open platform the 10.5WA affords its occupants.  Large swim platforms allow easy access from the dock, and there is a concealed stainless-steel swim ladder to port. On the aft deck the large teak table offers the flexibility to comfortably accommodate a large number of people, with the two pull-down bench seats; alternatively, you can drop the table using its telescopic leg to convert this area into a large sun pad for relaxing on hot, balmy summer days. Beneath the aft seating is a good-sized hinged deck locker, while below the deck is an extremely large locker that can accommodate even the most demanding of owner's additional equipment. This social area is serviced by an outdoor galley with sink, food preparation area and additional storage.

Moving forward, the helm station has a triple bench seat with fold down bolsters and arm rest to keep its occupants secure. The dashboard is dominated by twin 12" plotters and the 5" Yamaha colour display for engine data. There are also cupholders and several covered storage area for smaller items.

The asymmetric deck layout offers a more generous companionway on the Port side for accessing the bow, which houses two large sunbeds that have adjustable backrests and stainless-steel grab handles. The central cushion is removable allowing, as necessary, more light and air to reach the saloon below.

**Down Below**
Access to down below is through a clear companionway hatch and staggered steps into a light and airy lobby/galley area. The latter consists of a twin gas ring, fridge, sink and further storage. Below decks you are struck by how light and airy this area is, largely due to the large-aperture Season porthole which also provides an excellent view of the outside when seated at the table. A mirror on the anchor bulkhead further enhances this open feeling of this area.

The table itself can be collapsed on its telescopic leg to create a double berth. There are storage bins behind the backrests, recessed LED ambient lighting and a concealed curtain can be deployed to afford some privacy when this area is used as a berth.

On the Portside is the separate head compartment , with a shower, sink, an opening porthole.

Aft is a generous double berth with separate curtain for privacy, multiple lockers for storage, and opening portholes for ventilation.

Remarks :

With their limited availability new and recently reduced in price, this is a unique opportunity to purchase a pre-owned Jeanneau Cap Camarat 10.5WA. The 10.5 WA combines elegance and sportiness with her aggressive a product of Sarrazin design. The hull is

based on the patented Michael Peters twin-stepped hull that he has used in his designs for the US Coast Guard. This creates a cushion effect, resulting in a decrease in drag and better fuel economy. The 10.5 WA is therefore capable of easily traveling long distances at fast cruising speeds while offering optimal comfort on board. It is also the ideal boat for fun and enjoyable day trips, being able to seat 10 at the table, with two distinct exterior living areas.

The 10.5WA has been incredibly popular since its launch into the UK. The stepped hull coupled with twin Electronic Shift 300hp Yamaha V6 outboard engines ensure performance- led cruising; while the accommodation provides social seating areas, sunbeds, galley, good cabin spce and a marine head. Although showing-off her sporty credentials the 10.5WA is also very family-focused with lots of grab handles, high freeboard and safety-gate to the large stern platforms and swim ladder. All this goes to make an outstanding multi-role sports boat that has won world-wide recognition.

Last serviced, anti fouled and polished May 2020. She is all set ready to use this summer.

To avoid disappointment an early look this pretty, performance-led and very practical boat is highly recommended. Open 7 days a week, viewing is by appointment only.
