Remarks :

Hydraulic Lifting Keel High Specification, Jeanneau Sun Odyssey 410 - Available to view in Chichester.

The new Jeanneau Sun Odyssey 410 is designed by naval architects Philippe Briand and Marc Lombard, with contributing designer Jean-Marc Piaton, to revolutionise performance and comfort in its category. This model is particularly secure, featuring side decks without obstacles, lifting keel (1.37M - 2.97M) and comfortable coamings; while centralised winches, which can be controlled directly from the cockpit, also contribute to safety on board. The Jeanneau Sun Odyssey 410 also benefits from all the latest advances in technology combined with features such as:

- A hard chine running the full length of the hull for a more powerful and stable hull
- An inverted bow for fine entry, better weight distribution and a distinctive look
- A bow that stands clear of the water for less drag and greater speed
- Self-aligning rudders with self-aligning bearings for an improved feel on the helm
- A powerful retractable bow thruster for greater manoeuvrability
- Cathedral standing rigging with walk around decks for ease of movement
- An integrated bowsprit
- Lower boom to facilitate access and increase sail area
- Yanmar new generation JH-Common Rail Series 45HP engine
- In mast furling main sail
- Lifting keel

This example is a very high specification from the factory and will be one of the only examples in the UK with the hydraulic lifting keel. The keel gives you maximum performance whilst offering maximum flexibility allowing you access shallower waters with the press of a button.
