Remarks :

This is a unique opportunity to purchase the only flagship Jeanneau Cap Camarat 12.5WA in the UK. She arrived with us in Chichester, December 2021 where we commissioned her and orchestrated an exceptionally high spec fit out throughout which include: twin 16inch Raymarine plotters, upgraded fusion stereo system, t-top with full in enclosure, bespoke flexiteek decks, triple Yamaha 300hp Sterr by wire engines in white, bespoke hull, roof and boat wrap to name just a few of the options fitted. Due to a change of circumstances she has only been used for 9 hours this season and is being sold with the balance of her 7 year hull warranty and 5 years engine warranty.

The new Cap Camarat 12.5 WA refines more than ever the spirit of the Cap Camarat. It enters the luxurious world of large outboard day cruisers. Entrusted to the most renowned designers – Michael Peters Design and Sarrazin Design – the Cap Camarat 12.5 WA is notable for its perfectly balanced, pure and sporty hull lines.

Designed for cruising as well as luxury day boating, the Cap Camarat 12.5 WA features a large forward saloon that transforms into a berth, and a superb private aft cabin.

Luxury and space is in abundance in the master cabin, with its king size berth, sofa and sea views. The proximity and generous space of the head compartment further contribute to the atmosphere of luxury. The interior galley, offering privacy on board, is equipped to the highest standards (refrigeration, cooking, storage)

By entrusting the design of its tapered V-shaped hull by Michael Peters, based on criteria of the highest standards, Jeanneau can boast one of the world's greatest talents for powering its new Cap Camarat 12.5 WA in triple engines, with 900 HP. You can expect excellent performance from this exceptional hull!

Perfect ergonomic design and maximum comfort : the Cap Camarat 12.5 WA offers two magnificent exterior living spaces.

The forward cockpit represents true innovation, with a versatile saloon configuration featuring a side table and three spacious sun loungers.

An aft cockpit with a very comfortable L-shaped saloon is accessed by the aft swim platform and a side door to starboard. An electrically controlled drop-down terrace on the port side extends the cockpit to the sea, creating a new, very safe swim platform that is located far from the engines.

The helm station, entirely devoted to driving, features a leaning post with three seats and perfect ergonomics. The driving and safety equipment are perfectly located close at hand and the space is generous enough to accommodate multifunction display screens of up to 16'.

While the helm station can be protected by the superb, fully equipped T-TOP with stainless steel structure, the two cockpits can be sheltered by the sun awnings, perfectly suited to any type of cruising.
