Mechanical and Rigging

This Cap Camarat 7.5CC will be rigged with the mighty Yamaha F300, a 300hp V6 fly-by-wire controlled engine that is very proven and reliable. This will be connected to Yamaha's new CL5 (5" touch screen control panel) and the very tactile redesigned Yamaha single lever, top mounted throttle. The boat will come supplied with two keyless start fobs which also initiate the immobiliser function on a proximity basis.

This boat will further benefit from a Side Power bow thruster which is powerful and very useful at the moment of docking on breezy days.

This boat is available to order for delivery from April 2024 allowing her new owners enjoy the best months of the year afloat. We have chosen what we will is a strong specification but there is the ability to change the factory options.

This is the third generation of the 7.5 hull and it has been honed by the world class Micheal Peters hull design. This is outstanding hull, mated with the potent and proved Yamaha fly-by-wire 300hp results in good turn of speed (fast 28 knots cruising) and excellent sea keeping qualities. This example is also equipped with an electric windlass and bow thruster to make for easy manoeuvring. The boat also benefits from an Aluminium T-Top with fibreglass roof & white legs, marine toilet, storage space below (easy access from foredeck with large deck opening locker lid), towing post, rod holders, extended swim platforms and Garmin plotter, all of which make for a very versatile boat.

With such a flexible seating options and configurations on this model it makes for a very versatile vessel, the boat can be used for water sports, cruising, fishing, family trips and general social boating.
