### **Remarks :**

A lovely condition Westerly Centaur available for immediate viewing, constructed in 1978 this was a late production boat in the most popular design of yacht ever produced by a British builder giving testament to how popular and well liked these yachts were and continue to be. This model has been built to the more common and practical 'B' layout with the saloon to port, pilot berth aft and cabin forward, on decks she offers the usual spacious high sided cockpit common to Westerlys which offers more protection and comfort whilst sailing and is fully equipped with dodgers and spray hood to cope with all conditions.
