Remarks :

The C44 is the direct descendant of the C43, this yacht has been specifically designed for IPS technology. Driven by two Volvo pent IPS 500 engines, you can reach a top speed of 26 knots, with the IPS technology it has reduced carbon emission, reduced fuel consumption and noise level. The C44 was designed for those who desire to live on their boat in an open area

and enjoy the company of friends. Lucky VIII comes with a great investor and some excellent upgrades.

IPS 500 Volvo diesel engine with joystick

Heating

Bow thruster
