Anchor locker and Sampson post  
Deck Light  
Engine bay access  
Rod Holders  
Boat Hook

## Accommodation

### Remarks :

The Rodman 620 is designed as a comfortable day fisher with overnighting capacity in a

forward berth. Its characteristics include a spacious wheelhouse, large deck and typically good Rodman quality thorhtout - the example we have here, Savannah, is no exception to this rule.

She is a tidy example and offers a good specification with a recent Icom VHF and the popular Raymarine Dragonfly echo sounder complementing a standard horizon plotter.

Forward of the helm station you step down into a cabin space with room for 2 x people to sleep overnight and aft of the wheelhouse sliding doors open to a large deck perfect for fishing several rods in tandem from the convenient holders located around.

She has the workhorse Volvo TMD22 engine fitted which has been well looked after through its life and is very reliable with an auxiliary Yamaha engine which can also be used for low speed trolling.

Do ask us any questions you might have and we will be happy to answer them.

Part Exchange Considered

Antifouled April 18, Anodes April 17, Serviced April 17
