## **BROKERS COMMENTS**

Triton is a well presented and found example of the ever popular Sadler 32, designed and built by David Sadler - Triton is well setup for cruising with a good inventory and equipment list that will allow her new owners to take her wherever they might wish.

She has a fin keel so will stand up well to a bit of a blow offshore but is also of a size that will allow her access to smaller and more secluded anchorages and moorings if desired.

A lovely boat that will prove for a good option and flexibility of performance for both experienced and new sailors alike.

### **OWNERS COMMENTS**

I have owned Triton since 2003, and have sailed the Bristol Channel from Swansea, to Cardiff Watchet, Lundy, Padstow, Scilly Isles, Dartmouth and Brittany. She is a good safe boat, handles well under windy conditions, and safely sailed me back from France in a force 8 wind.

Solid fibreglass hull, built in the 80's, so a good hull thickness she has a hot water system to the galley and heads which is from engine cooling and electric immersion.
