Heating Outlet
Storage cabinet
Shelving both sides

Remarks :

The Finnsailer 29 'Good Girl' has been well looked after and cared for by her owner, designed by Primrose and built by Fiskars she is ideal for sailing the coastal waters of the UK with her shallow draft offering good access to shallower coastal waters, exploring estuaries and rivers at leisure.

Very well looked after by her owners she is clearly well loved and offers the benefits of being

able to get out of the elements under the fixed coach roof whilst a lovely aft cabin and quarter deck arrangement means you can take advantage of the sunny weather when its around. The best of both worlds.

Once you've finished your days sailing you can make yourself comfortably at home in the spacious cabin and well appointed cabin which includes a large galley, heating and independent aft berth.

A great prospect and a lovely boat.
