Storage under V-berth

Remarks :

Ellie May II is a great example of an Arvor 23, she is equipped with a 115hp Nanni Inboard engine. She offers a large deck open with rod holders, swim platform with door for ease of landing larger catch and bait table for preparing and cleaning fish.

Forward there is an electric windlass that is controlled from the helm position.

The wheelhouse is spacious with seating at the helm for 2 people, berth below and a small galley with sink and fixed gas stove to port. She is equipped with Lowrance Fishfinder, Standard Horizon and Garmin GPS and a Icom VHF.

A really nice example of this well sought after fishing boat.

Part Exchange Considered and Finance Available.
