Mechanical and Rigging

This boat is a fine example of a large boat that will cruise from a few knots up to 17/18 knots giving the range and ability to cope with all conditions relatively economically.
The engines are like new with 110 hrs on Port and Starboard.

Accommodation

2 Cabins
3 Heads

Remarks :

2014 Adagio 55, barely used and in fantastic 'like new' condition. This boat has never been used and this is showing just over 110 hrs per engine. Everything on the boat is in top condition and in full working order. She has a permanent Crew member keeping her clean and constantly checking on the health of all systems. It is fair to say she is as good as new. She is a true bargain at this price and a new one will take you up to around €1.4 million ex vat.
