Fisher 30

Broker Remarks

Main mast rewired to new mast headtri colour light, new steaming light and deck light. The Fisher 30 was the first Fisher built. Marketed by Fairways Marine and built by Northshore as one of the contract builders they were an immediate success on the market. Northshore took over the moulds in 1981. The Fisher 30 has remained as popular now on the second hand market as she was when introduced and a model in good condition will not stay on the market long and will command a high price

Accommodation
