Accommodation

This beautiful Sealine SC47 lying in Spain built in 2009. Fitted with twin Cummins QSB 5.9 480hp Inboard Diesel Engines powering Zeus Pod Drives with joystick control is a must see.

Layout and Accommodation

The cockpit area of this SC47 has a large sociable seating area for twelve persons, complete with a large extending table, BBQ, Fridge, Wine Cooler and sink. It also has a fully integrated Yamaha Bluetooth sound system and ceiling mounted LG flat screen TV should the mood take you. This offers the freedom of a more open environment within seconds by opening the electrical retracting roof or can offer a large fully enclosed social area if the weather is inclement.

Master mid cabin aft

This is a full beam space, ensuite with separate shower and heads. A centrally located large double bed and flat screen TV fitted to the forward bulk head.

Forward cabin

A good size double berth with full standing head room. This second cabin is bigger than most master cabins in other crafts.

Saloon

The salon offers double accommodation with the conversion of the U-shaped saloon seating area.

Cockpit

Option to sleep a further two persons in the cockpit -under canvas.

Remarks :

An excellent and heavily specified Sealine SC47 currently lying in Spain. Built in 2009. Fitted with well maintained twin Cummins QSB 5.9 480hp Inboard Diesel Engines powering Mercruiser Zeus Pod Drives with joystick control. This Sealine SC47 is a stunning sports convertible motor yacht in full White specification, with a uniquely generous cockpit and

saloon. The electronic full sliding sun roof gives you all the benefits of a hardtop boat with the ability to transform her into an open top cruiser in just a matter of seconds. This design offers a great social environment in which guests will enjoy time together with an inclusive experience created by a large sociable seating area with numerous entertainment facilities on hand. It gives the freedom of a more open environment or can operate as a large closed environment, if required. It also offers a very spacious and safe family friendly areas both above and below deck offering extensive amounts of space compared to other boats of a similar size and design.

The Sealine SC 47 was one of the first boats to be fitted with revolutionary Zeus Drive systems. This drive system was developed on much larger ships before being adapted to leisure craft. If you are used to conventional twin engines and bow thruster, you won't believe what you have been missing in terms of this modern systems close quarter manoeuvring, making docking so much more precise and pleasurable. Its four propeller system also offers excellent efficiency in both available power and fuel efficiency.

This is an opportunity to purchase a well maintained, high specification SC47 built by Sealine in the UK.
