Construction, Mechanical and Rigging

Construction:

Gemini Waverider 650 Rib, built by Gemini Marine Ltd in 2017 - HIN: ZA-GEM10884B717
Planning hull with 18 Deg deadrise
GRP hull and deck
Foam filled hull
M8 deck utility bolt system
Deck track system
Strengthened deck for high load areas and mounts
Hypalon sponsons (1100 Dtex), 5 compartments with a diameter of 470mm
Tube volume: 2.034m³

Mechanical:

Powered by a single Mercury F150XL 150hp 4-Stroke petrol outboard engine
Electric power, tilt and trim
Mercury engine instrumentation

Key Features:-

- **Hull Quality** – Constructed from advanced composite materials; providing an exceptionally strong structure, and a damage and corrosion resistant craft.
- **Superior Seakeeping** – Gemini's composite deep-vee hull offering outstanding seakeeping, improved stability, as well as being forgiving to operate.
- **Interoperability** – Available with single or multipoint lifts designed for safe launch and recovery.
- **Proven** – A hull design for superior seakeeping, payload carrying and reduced hull slamming supported by advanced shock mitigation seating ensures personnel remain fully capable.
- **Reliable** – Outboard engine options deliver improved reliability, superior shallow water capability (o/b) and exceptional manoeuvrability and control at low and high speed.
- **Mission Specific** – Flexible platform design which can be adapted differing configuration, bespoke fit-out and equipment fit.
- **Compliance** – Built to an internationally recognised standard, and can be easily equipped and coded to meet local authority regulatory compliance.
- **Transportability** – The 650 is transportable by road on road trailer or flatbed truck, it can also fit in an ISO shipping container and can be made compatible for air transport.

Remarks :

'Watershoot', 2017 Gemini Waverider 650 RIB powered by a Mercury 150hp outboard engine. The GEMINI WAVERIDER 650 has quickly risen to a best seller. Its sleek lines and ultra-modern hull design ensures a dry ride for crew and passengers and with hull and deck being constructed to the same specifications as the Commercial W650 version. Fantastic specification to include navigation equipment, safety equipment, and upgraded seating configuration.
