## Remarks :

We present a Halmatic Arctic 28 hull that has been completely refitted from scratch in 2020 and has had a lot of money spend to get her up to a very high standard of the vessel. The wheelhouse is Aluminium and has been fitted to the deck using the original Lifting points of the vessel and is extremely well secured. This vessel is more than capable of rough weather handling and reaches speeds off approx 52 knots. These boats where built for the SBS and quality is unbelievably good.
